#### CITY OF CHARLOTTESVILLE, VIRGINIA CITY COUNCIL AGENDA

Agenda Date:	March 15, 2021
Action Required:	No actions required
Presenter:	Hezedean A. Smith, Fire Chief (Intro); Deputy Chief Powers (Presenter)
Staff Contacts:	Deputy Chief Joe Powers
Title:	Charlottesville Fire Department's Community Risk Reduction Initiatives

#### **Background:**

In January 2020, the Charlottesville Fire Department expanded its scope to include an intentional focus on Community Risk Reduction or CRR. Based on risk assessments, data, and outcomes, CRR is a wholesale change from traditional fire service practices. Since January, the CRR efforts in Charlottesville gained regional and national attention within the fire service industry. The presentation provides insight regarding the background of CRR and how the department's efforts and realignment are positively impacting the community.

#### **Discussion**:

Deputy Chief Powers will discuss the PowerPoint presentation

#### Alignment with City Council's Vision and Strategic Plan:

This presentation on Community Risk Reduction exemplifies the fire department's efforts to create efficiency in service delivery, match resources with community needs, and understand better the differences with the city's neighborhoods.

#### **Community Engagement:**

Community Risk Reduction within the Charlottesville Fire Department focuses on strategic public engagement through community partnerships. The presentation will outline examples of community outcomes achieved through strategic engagement.

#### **Budgetary Impact:**

The model of Community Risk Reduction drives efficiency in service delivery and decreases workload. There is no direct fiscal impact or request for additional resources. However, the presentation outlines the measures the Charlottesville Fire Department takes to improve stewardship of city funds. As the department seeks to solidify its approach to a comprehensive CRR process, there may be future needs and support necessary to support execution of the vision.

tomanoes have a 27 percent chance of occurring in central Virginia. Even though the chance is small, tornadoes are still possible. July is the most active month for tornadoes in Virginia. A total of 22 historical tornado events that were the magnitude of two or greater were recorded in or near Charlottesville between 1950 and 2020.

#### Historical Tornado Data

Earthquakes are rare in the Mid-Atlantic region, but a magnitude 3.2 earthquake occurred just north of Charlottesville in 2001. Nearby Mineral (in Louisa County) was the epicenter of a 5.8-magnitude earthquake on August 23, 2011.

NORTH DOWNTOWN North Downtown is a city-designated neighborhood extending from McIntire Park south, down Park Street. The neighborhood includes the Charlottesville-Albemarle County Courthouse District. North Downtown is listed as a historic district on the National Register of Historic Places and the Virginia Landmarks Register. At the center or the North Downtown neighborhood is historic Court Square, the oldest portion of the City of Charlottesville. Settled around the Albemarle County Courthouse, some of the buildings date to the early 1800's. Court Square was the first commercial center.	United	Barracks / Rugby '
As this neighborhood lies in the heart of Charlottesville, it also contains City Hall, the County Office Building, and all Courts: Federal, City and County Circuit Courts, City and County District Courts, and Juvenile Court. There is a large art gallery (McGuffey Ar Center, a historic building), the main library, the Historical Society	ts	& Page Starr Hill Charlottesville Martha Jeffer
USPS post office branch, the Downtown Transit Center, several churches including the only synagogue, a Catholic Church, the only Greek Orthodox Church and several entertainment venues includin a restored historic theater. The central piece after our historic properties is the Downtown Mall.	a comment	
The neighborhood is pedestrian-oriented, as residents walk to the above venues.	Biberban Arr	Ridge Street
